**MICHAELS STORES, INC.  
AMENDED AND RESTATED  
1997 STOCK OPTION PLAN**

**Available Information Regarding the Plan**

A copy of the plan has been filed as Exhibit 99.1 to our current report on Form 8-K (SEC File No. 001-09338) filed with the SEC on July 24, 2003.

The following summaries of certain provisions of the plan are not complete and are subject to, and are qualified in their entirety by reference to, all of the provisions of the plan. See Incorporation of Certain Documents by Reference. Copies of the plan and additional information regarding the plan and the plan's administrators may be obtained by contacting us at the address or telephone number listed on the cover page of this prospectus.

**Purpose and Adoption of the Plan**

The plan is intended to provide incentive compensation to certain of our executive officers, key employees, directors, advisors and consultants. The plan is also intended to aid in attracting persons of outstanding ability to serve and remain in our service. Our board of directors adopted the original plan effective as of June 6, 1997. The stockholders approved the adoption of the original plan at the annual meeting of stockholders held on June 6, 1997. In accordance with the terms of the plan, our board of directors adopted amendments to the original plan effective as of July 18, 2003, which amendments are embodied in the amended and restated plan filed as Exhibit 99.1 to our current report on Form 8-K filed with the SEC on July 24, 2003.

**Shares Available Under the Plan**

As of the close of business on August 23, 2005, the total number of shares of common stock available for issuance under the plan was 5,017,801, all of which shares are subject to options previously granted to plan participants. On June 16, 2005, in connection with the adoption of our 2005 Incentive Compensation Plan, we permanently ceased granting options under the plan. Shares of common stock issuable under the plan may be authorized but unissued shares, shares held in treasury or a combination of both.

**Description of Options Available Under the Plan**

The plan authorizes the grant of options to purchase shares of common stock that are not intended to qualify as incentive stock options under Section 422 of the Internal Revenue Code of 1986, and which permit a participant to benefit from increases in the value of shares of common stock above a predetermined purchase price per share.

The plan does not specify a maximum term for options granted under the plan. The exercise price of the options may not be less than the fair market value per share of the common stock on the grant date. No more than 1,500,000 shares of common stock pursuant to options may be granted to any plan participant during any single calendar year.

Payment for shares of common stock purchased upon the exercise of an option may be made:

in cash or by check acceptable to us;

by transfer to us of shares of common stock, having a value on the business day immediately preceding the exercise date equal to the total exercise price, that are owned by the plan participant and, unless otherwise determined by the committee or the board of directors,

**Table of Contents**

either (1) were acquired from a person other than us or (2) have been held by the plan participant for at least six months;

by deferred payment from the proceeds of sale through a bank or broker of some or all of the shares of common stock to which such exercise relates;

by authorizing us to withhold a number of shares of common stock otherwise issuable to the plan participant, having a value on the business day immediately preceding the exercise date equal to the exercise price, provided that, unless otherwise determined by the committee or the board of directors, the participant attests that he or she owns such number of shares and that the shares either (1) were acquired from a person other than us or (2) have been held by the plan participant for at least six months;

by any other legal consideration acceptable to the plan's administrators;

by a combination of any of the foregoing.

However, payment by the transfer of shares of common stock to us, withholding shares of common stock by us or deferred payment will not be available at any time during which we are prohibited from purchasing or acquiring shares of common stock.

The plan does not require that a participant hold the shares received on the exercise of options for a specified period. The plan permits immediate sequential exercises of options with the exercise price being paid in shares of common stock, including shares of common stock acquired as a result of prior exercises of options.

The plan's administrators may, without the consent of the holder of an option, amend any option agreement in various respects, including acceleration of the time at which the option may be exercised, extension of the expiration date, reduction of the purchase price and waiver of other conditions or restrictions.

**Plan Administration**

The plan is administered by a committee of the board of directors and the board of directors. The committee and the board of directors have the authority to decide which individuals will receive option grants, the number of shares of common stock to be covered by each option, and the time or times at which options will be exercisable. However, the committee has exclusive authority with respect to options intended to comply with Section 162(m) of the Internal Revenue Code. All of the members of the committee, which must comprise at least two members, are intended to qualify as "outside directors" within the meaning of Section 162(m) of the Internal Revenue Code and as "non-employee directors" within the meaning of Rule 16b-3 under the Securities Exchange Act of 1934. The board of directors has appointed our Compensation Committee, whose members are appointed and may be removed by the board of directors from time to time, as the committee to administer the plan.

The committee and the board of directors have the full authority and discretion to administer the plan. Any determination by the committee or the board of directors will be final and conclusive. However, if the committee disagrees with the board of directors, the determination of the board of directors will be the final and conclusive determination.

**Persons Eligible to Receive Options**

Executive officers, key employees, directors, advisors, and consultants of Michaels and our subsidiaries are eligible to receive grants of options under the plan.

**Table of Contents**

**Transferability of Options**

Options granted under the plan will be subject to the transfer restrictions, if any, that the committee or the board of directors may impose in granting the options.

**Adjustments to Shares Available Under the Plan**

The committee or the board of directors may make or provide for adjustments in the maximum number of shares of common stock available under the plan, the number of shares of common stock covered by outstanding options, the purchase price per share of common stock covered by options, and/or the kind of shares covered (including shares of another issuer), as they may determine is equitably required to prevent dilution or enlargement of the rights of plan participants. Such circumstances include any stock dividend, stock split, combination of shares, recapitalization or other change in our capital structure, merger, consolidation, spin-off, reorganization, partial or complete liquidation, issuance of rights or warrants to purchase securities or any other corporate transaction or event having an effect similar to any of the foregoing.

**Vesting of Certain Options upon a Change in Control**

The stock option agreement evidencing any option may provide for the earlier exercise of such option in the event of a change in control of Michaels (as defined in such stock option agreement or in any agreement referenced in such stock option agreement) or in the event of any other similar transaction or event.

**Withholding Taxes**

To the extent that we are required to withhold federal, state, local or foreign taxes in connection with any benefit realized by a plan participant or other person under the plan, and the amounts available to us for the withholding are insufficient, it will be a condition to the realization of the benefit that the plan participant or other person make arrangements satisfactory to us for payment of the balance of the taxes required to be withheld. In addition, a plan participant may also elect to have the withholding obligation of Michaels satisfied with shares of common stock that would otherwise be transferred to the participant upon exercise of the option (or portion thereof), but Michaels may not withhold shares of common stock for this purpose in excess of the minimum tax required by law.

**Nonqualified and Unfunded Status of the Plan**

The plan is unfunded and does not give participants any rights that are superior to those of our general creditors. The plan is not subject to the provisions of the Employee Retirement Income Security Act of 1974 and is not qualified under Section 401(a) of the Internal Revenue Code.

**No Rights to Continued Employment**

The plan does not confer upon any plan participant any right to continued employment or other service with us or any of our subsidiaries and does not interfere in any way with any right that we or any of our subsidiaries would otherwise have to terminate a plan participant's employment or other service at any time.

**Termination and Amendment of the Plan**

The plan may be terminated at any time by action of the board of directors. The termination of the plan will not adversely affect the terms of any outstanding options. The plan may be amended by the board of directors or any duly authorized committee of the board of directors. Such amendments may include changes required or permitted by the Internal Revenue Service, the SEC, the National Association of Securities Dealers, Inc., any stock exchange upon which the common stock is listed for trading, or any other governmental or quasi-governmental agency having jurisdiction over us. Any amendment to the plan which removes or lessens any restrictions on options will apply to all options then outstanding.

**Table of Contents**

**Nature and Frequency of Reports**

Other than an agreement evidencing a grant of options, we do not intend to provide plan participants with updates as to the number of options granted, and status of such grants, under the plan.

**Reoffers and Resales**

Plan participants who are our affiliates may resell shares of common stock acquired pursuant to the plan (1) under an effective registration statement, if any, covering such resale or (2) in brokerage transactions on the New York Stock Exchange without registration under the Securities Act of 1933 upon compliance with all of the requirements of Rule 144 promulgated by the SEC. Plan participants who are not our affiliates may resell shares of common stock acquired pursuant to the plan in brokerage transactions on the New York Stock Exchange or otherwise without complying with Rule 144. As used in this paragraph, the term affiliates includes any plan participant who directly, or indirectly through one or more intermediaries, controls, is controlled by, or is under common control with us. Our directors and officers may be considered to be affiliates and, therefore, should seek guidance on this issue before reselling shares of common stock acquired pursuant to the plan.

**FEDERAL INCOME TAX CONSEQUENCES**

**General**

Certain U.S. federal income tax consequences of the grant, exercise or transfer of options, and the subsequent sale of shares acquired upon the exercise of options, are summarized below. This summary is based on the Internal Revenue Code, as amended to date, applicable proposed and final Treasury Regulations, judicial authority and current administrative rulings and practice, all of which are subject to change. This summary does not attempt to describe all of the possible tax consequences that could result from the acquisition, holding, exercise or disposition of an option or the shares of common stock purchased upon the exercise of an option.

Because the tax consequences to a plan participant may vary depending on his or her individual circumstances, each participant should consult his or her personal tax advisor regarding the federal and any state, local or foreign tax consequences to him or her.

**Recognition of Income; Tax Withholding**

Options granted under the plan are intended to be nonqualified stock options. Nonqualified stock options generally will not result in any taxable income to the plan participant at the time of the grant, but the participant will realize ordinary income at the time of exercise of the options if the shares are not subject to any substantial risk of forfeiture (as defined in Section 83 of the Internal Revenue Code). Under such circumstances, the amount of ordinary income is measured by the excess of the fair market value of the optioned shares at the time of exercise over the exercise price. Such income is subject to payment and withholding of income, FICA and Medicare taxes and other applicable employment taxes.

**Tax Basis in Shares Acquired; Gain or Loss on Disposition**

A plan participant's tax basis in shares acquired upon the exercise of nonqualified stock options is generally equal to the exercise price plus any amount treated as ordinary income at the time of exercise. If shares acquired upon exercise of an option are later sold or exchanged, the difference between the sales price and the plan participant's tax basis in the shares will generally be taxable as a capital gain or loss (if the stock is a capital asset of the plan participant). The deductibility of capital losses is subject to certain limitations which are not addressed herein.

**Table of Contents****Payment of Exercise Price with Shares**

If the exercise price of a nonqualified stock option is paid for, in whole or in part, by the delivery of shares of common stock previously owned by the plan participant, no gain or loss will be recognized on the exchange of the previously owned shares of common stock for a like number of shares of common stock. The plan participant's basis in the number of shares received equal to the number of previously owned shares of common stock surrendered would be the same as the plan participant's basis in the previously owned shares of common stock. However, the plan participant would be treated as receiving ordinary income equal to the fair market value (at the time of exercise) of the number of shares of common stock received in excess of the number of previously owned shares of common stock surrendered, and the plan participant's basis in such excess shares would be equal to their fair market value at the time of exercise.

**Federal Tax Consequences for Transferors of Stock Options**

A plan participant who transfers a transferable option by way of gift will not recognize income at the time of the transfer. Instead, at the time the transferee exercises the transferable option, the transferor of such transferable option will generally recognize ordinary compensation income in an amount equal to the excess of the fair market value of the shares purchased by the transferee over the exercise price of the related option, in the same manner as if the transferor had retained and exercised the option. If a transfer constitutes a completed gift for gift tax purposes, then such transfer will be subject to federal gift tax except, generally, to the extent protected by the individual's annual exclusion, by his or her lifetime unified credit or by the marital deduction. The amount of the gift is the value of the option at the time of the gift. If the transfer of the option constitutes a completed gift and the transferor retains no interest in or power over the option after the transfer, the option generally will not be included in his or her gross estate for federal estate tax purposes. Prior to making a transfer of a transferable option, a plan participant should consult with his or her personal tax advisor concerning the possible federal and state gift, estate, inheritance, and generation skipping tax consequences of such a transfer, as well as state and local income tax consequences which are not addressed herein.

**Recent Federal Tax Legislation**

The American Jobs Creation Act of 2004, or AJCA, enacted on October 22, 2004, revised the federal income tax law applicable to the types of awards that are considered deferred compensation under the AJCA. If applicable, the AJCA imposes requirements on the provisions and administration of plan awards. These requirements relate to the time, manner and form of elections to defer the income attributable to an award, and to the conditions that must be satisfied to distribute award benefits to participants. Failure to satisfy the requirements may result in the imposition of potentially significant penalties: current taxation of income deferrals without regard to whether the income has been paid; an increase in tax equal to 20% of the deferrals included in income; and an interest charge on the deferrals. The new tax rules are not intended to apply to nonqualified stock options with an exercise price of not less than fair market value on the date of grant.

**General Matters Applicable to Michaels**

To the extent that a participant recognizes ordinary income in the circumstances described above, Michaels or a subsidiary would be entitled to a corresponding federal income tax deduction, provided in general that (1) the amount is an ordinary and necessary business expense and such income meets the test of reasonableness, (2) the deduction is not disallowed pursuant to the annual compensation limit set forth in Section 162(m) of the Internal Revenue Code, and (3) certain statutory provisions relating to so-called excess parachute payments do not apply. Awards granted under the plan may be subject to acceleration in the event of a change in control of Michaels. Therefore, it is possible that these change in control features may affect whether amounts realized upon the receipt or exercise of options will be deductible by Michaels under the excess parachute payments provisions of the Internal Revenue Code.

**PLAN OF DISTRIBUTION**

Upon the exercise of options granted under the plan, we will issue shares directly to or for the benefit of plan participants (or their permitted transferees) exercising such options. The shares acquired upon the exercise of options may be sold or otherwise disposed of from time to time in one or more transactions through any one or more of the following:

to purchasers directly;

in ordinary brokerage transactions and transactions in which the broker solicits purchasers;

through underwriters or dealers who may receive compensation in the form of underwriting discounts, concessions or commissions from the persons eligible to offer and sell shares pursuant to the registration statements and this prospectus or from the purchasers of the shares for whom they may act as agent;

the pledge of the shares as security for any loan or obligation, including pledges to brokers or dealers who may, from time to time, themselves effect distributions of the shares or interests therein;

purchases by a broker or dealer as principal and resale by such broker or dealer for its own account pursuant to this prospectus;

a block trade in which the broker or dealer so engaged will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction; and

an exchange distribution in accordance with the rules of such exchange, including, without limitation, the New York Stock Exchange, or in transactions in the over the counter market.

Such sales may be made at then-current prices, at prices related to the then-current market prices or at negotiated prices. In effecting sales, brokers or dealers may arrange for other brokers or dealers to participate. The persons eligible to offer and sell shares pursuant to the registration statements and this prospectus or their successors in interest, and any underwriters, brokers, dealers or agents that participate in the distribution of the shares, may be deemed to be underwriters within the meaning of the Securities Act of 1933, and any profit on the sale of the shares by them and any discounts, commissions or concessions received by any such underwriters, brokers, dealers or agents may be deemed to be underwriting commissions or discounts under the Securities Act. In addition, any of the shares covered by this prospectus which qualify for sale pursuant to Rule 144 may be sold under Rule 144 rather than pursuant to this prospectus.

We will pay all of the expenses in connection with the offering contemplated by this prospectus other than underwriting discounts or commissions, brokers' fees and the fees and expenses of any legal counsel to the persons eligible to offer and sell shares pursuant to the registration statements and this prospectus.
